**WE R CPR** is a Baton Rouge based CPR training company that takes pride in offering high quality CPR classes at affordable rates.

We at **WE R CPR** offer Heartsaver courses and BLS courses. These classes can be held in a classroom setting or online. The classroom CPR courses are video-based, instructor-led courses that teach students critical skills needed to respond to and manage a choking or sudden cardiac emergency in the first few minutes until emergency medical services (EMS) arrive. The online-based cpr classes are blended; the majority of the class is completed online. Students then complete a skills check portion of the certification in person with a licensed instructor.

The mission of our instructors is to create a real world environment when training students to be able to retain and utilize life saving skills in the event an emergency arises.
